Knowing Myself (EXPLORING MYSELF)

Every individual child is unique. It is a very special call. I have strengths that can overcome my weaknesses, interests and passions that can motivate me to keep moving forward and achieve goals. Self-exploration will brighten my inherent strengths and skills. It will encourage personal growth and increase persistence.

"The greatest discovery of all times is the discovery of the self".

Respecting Others

Respect is a habit that reflects our character. Always respect others, treat everyone with kindness and dignity, regardless of differences. Even when we disagree with someone, we should speak calmly and avoid hurtful words. Respecting Teachers and classmates creates a positive learning environment in the School. At the same time, respecting Parents and elders strengthens family bonds. For a harmonious society, we need to follow the rules laid down by respecting one another. Remember, Respect is commanded and not demanded.

Unity In Diversity

India's strength lies in its beautiful mosaic of cultures, languages, and faiths. This unity in diversity teaches us that our differences are not weaknesses but enriching threads in our national fabric. Let this thought remind us to embrace pluralism, fostering an environment of mutual respect and harmony throughout the academic year.

THE AIR WE BREATHE CONNECTS US ALL. CLEAN AIR IS NOT A LUXURY; IT IS A RIGHT WE MUST PROTECT.

FACING CHALLENGES

The Climb is the Strength

Facing Challenges

"The climb is the strength"

Challenges aren't stop signs, they are stepping stones. This month we shift our focus from "I can't do this" to "I can't do this yet". Facing a challenge means having the courage to try, the grit to fail, and the heart to get back up and try again

Inclusion Et Acceptance

"Inclusion begins with understanding and acceptance begins with love."
Inclusion and acceptance teach us to welcome everyone with open hearts and open minds. They remind us that every child is unique, capable, and valuable in their own way. When we respect differences in abilities, cultures, and ideas, we create a safe, caring, and joyful environment. Together, we learn from one another, grow stronger and build a community where every voice matters and every heart truly belongs.

TEAMWORK

Teamwork

(ME TO WE)

"Teamwork makes the dream work."

Teamwork guides us from "me" to "we" through cooperation and unity. When we collaborate, encourage one another and exchange ideas, learning becomes meaningful and enjoyable. Working together develops empathy, responsibility and mutual respect. As a united team, we overcome challenges, accomplish goals, and celebrate shared success. It strengthens friendships, builds confidence, and teaches us that together we can achieve far more than we ever could alone.

HELPING HANDS

Helping Hands

No one has ever become poor by giving.

Money is not the only commodity that is fun to give. We can give time, we can give our love or simply give a smile. Helping hands create a sense of unity and compassion. A society where people extend helping hands to one another becomes peaceful and progressive. Helping hands are a symbol of kindness and love. No act of help is too small. If we all learn to help each other, the world will surely become a better place.

Citizenship

My Country-My Responsibility

Citizenship is not a mere legal status, it is a shared responsibility. It gives a person certain rights, duties and responsibilities within the nation. Citizenship creates a bond between the individual and the country. Citizenship is both a privilege and a responsibility. A strong nation is built by responsible and active citizens who work together for peace, harmony, well being, progress and unity.
